

SUPPLY LIST

DOUBLE WEDDING RING

JOHN FLYNN

Project size 54" X 54", 18" block

Sewing machine in good repair, extra needles. Important – if your machine has a free arm, please bring the attachment to make a full deck. Sewing supplies. Straight handled OLFA Brand rotary cutter with 28mm wheel, mat and ruler.

Option 1. Template fee \$15, required

Fabrics

Background – One and ½ yard – traditionally white or muslin, you may use anything you choose, but “white on white” fabric is often too thin for a good background

Arcs – ½ yard each of six fabrics for the arcs. Use prints moderately contrasting in both color and value with some variety in scale. Important – sizes and shapes of these 6 pieces should be consistent for easy stacking and cutting.

Four Patches – ¼ yard of two fabrics for corner four patches.

Fat quarters would be plenty for class, if you just want to make a sample

Option 2 – purchase a pre-cut kit from the instructor for \$70, 18" template set included or \$55 without template set.
